	Dulux - Gnu Tan	Wash n Wear Low Sheen	Acrylic

PLANTING GUIDE

All plants used were native and most of the plants selected will tolerate wet soils for various periods of time, as parts of the rear yard were quite water logged.

Baloskion pallens- (Didgery Sticks)- dark green cylindrical stems, tolerate wet soils for extended periods, and also drought.

Juncus usitatus (Tussock Rush)- suits damp or poorly drained soils, frost hardy, full sun or partial shade

Grevillea 'Moonlight' - long flowering, creamy yellow flowers, great for attracting birds to the garden

Leptospermum flavescens 'Cardwell'- likes moist, well drained soil, excellent display of white flowers in late winter spring, weeping habit

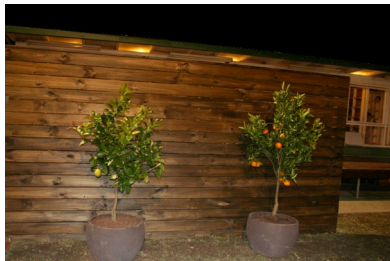

Melaleuca 'Revolution Green'

Tristaniopsis laurina 'Luscious' (Watergum)- big advanced stock, look great

Westringia 'Jervis Gem'

Potted Citrus - 35 ltr 'Eureka' Lemon

- 35 ltr Mandarin 'Emperor'

Tuckeroo – established tree used as instant cover for back fence
